

The SPEAKER. Congratulations. You are now a Member of the 115th Congress.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. Under clause 5(d) of rule XX, the Chair announces to the House that, in light of the administration of the oath of office to the Member-elect, the whole number of the House is now 435.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

CONGRATULATIONS TO THE NATIONAL CHAMPION CLEMSON UNIVERSITY TIGERS

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, early this morning, the Clemson University Tigers achieved the College Football National Championship in what was one of the most stunning and unforgettable endings to a football game. Trailing behind the formidable University of Alabama for the majority of the game, the Clemson Tigers refused to be defeated, culminating in a come-from-behind win at literally the last second.

Throughout the entire season, the Clemson football team has shown guts, grit, and determination to their team, their school, and the State of South Carolina. This was a well-deserved win for a remarkable school and a remarkable program. I join my two sons, Julian and Hunter, who graduated from Clemson, and Clemson fans from across the Nation in celebrating this historic victory.

Congratulations to Clemson superstars Deshaun Watson and Ben Boulware, who were named most valuable players for the game. Congratulations as well to President Jim Clements and his wife, Beth. They are continuing in the world class tradition of Jim and Marcia Barker.

In conclusion, God bless our troops, and may the President, by his actions, never forget September the 11th in the global war on terrorism.

Congratulations, Dabo Swinney and the entire Clemson football family. Go Tigers.

AFFORDABLE CARE ACT

(Ms. ADAMS asked and was given permission to address the House for 1 minute.)

Ms. ADAMS. Mr. Speaker, I rise today to express strong opposition to any attempted repeal of the Affordable Care Act. In North Carolina, more than 552,000 people have gained affordable health care through the Affordable

Care Act. One of those residents is Mrs. Darlene Harris of Charlotte, North Carolina, who was born with a hole in her heart. Each and every breath she has taken has been a miracle.

When her heart was beats away from rupturing, her husband's insurance saved her life. Following his death, Darlene tried to cope without that insurance, gambling with her own life. Thanks to the ACA, she is free from that awful burden.

A repeal of the Affordable Care Act would condemn millions of hard-working Americans and their loved ones to the nightmare of the past when preexisting conditions were not covered. It is imperative that we not ignore the pleas of our fellow Americans. It has and will continue to save the lives of our family, neighbors, and friends. I urge my colleagues to absolutely object to any repeal of the Affordable Care Act.

THE GREATEST SHOW ON EARTH

(Mr. WALBERG asked and was given permission to address the House for 1 minute.)

Mr. WALBERG. Mr. Speaker, this week kicks off the North American International Auto Show in Detroit. As a car guy all my life, I never missed the world's premier automotive event, the greatest show on Earth. This year there is plenty to celebrate.

Just yesterday, Fiat Chrysler announced it would create 2,000 jobs and invest \$1 billion to modernize manufacturing plants in Michigan and Ohio. Last week, Ford scrapped plans for its facility in Mexico and instead promised to invest \$700 million at the Flat Rock plant. This move will bring 700 new jobs to Michigan. These are exciting developments for our State's economy and good paying jobs for our dedicated and talented workforce.

Mr. Speaker, as everyone will see at this year's auto show, Michigan continues to lead the way in car manufacturing. Working together, we can keep Michigan on the forefront of innovation and mobility and keep making the best cars and trucks in the world right in our backyard, the motor capital of the world.

AFFORDABLE CARE ACT

(Mr. GENE GREEN of Texas asked and was given permission to address the House for 1 minute.)

Mr. GENE GREEN of Texas. Mr. Speaker, let's not make America sick again.

I am deeply disappointed my Republican colleagues are moving forward with their plan to undo the historic progress we have made by expanding health coverage under the Affordable Care Act, repealing it and leaving millions of Americans with no coverage.

While repeal and replace was an abstract talking point for years, it is clear that there is no plan for replacement, no plan. The new phrase "repeal

and delay" will, in effect, be repeal and chaos, with no plan in place.

Repeal will have real-life, personal impact on 30 million Americans who will stand to lose their health insurance. The options for the 129 million Americans with preexisting conditions who have newfound health security would disappear. We would be returning to a time of lifetime limits, annual caps for care, and consumers will be sold junk health plans at high costs.

Not only will the newly insured suffer, repeal would destabilize the individual health insurance market and send the healthcare system into disarray. Let's don't make America sick again. Let's have no repeal without a replacement.

THANK YOU TO MICHIGAN'S FIRST CONGRESSIONAL DISTRICT

(Mr. BERGMAN asked and was given permission to address the House for 1 minute.)

Mr. BERGMAN. Mr. Speaker, I rise today to say thank you to the people of Michigan's First Congressional District for giving me the opportunity to represent them in Congress. I would also like to thank my wife, Cindy, and our children and grandchildren for their constant and unwavering support.

It is truly an honor and a privilege to be here, and I am so humbled to be doing the people's work in the House of Representatives. I came to Congress not only to restore common sense and fiscal sanity to the Federal Government but, most importantly, to serve the constituents of Michigan's First District and to be their voice in Washington.

We have a new opportunity ahead of us to bring industry and prosperity back to the American people, but it is up to us here in Congress to do the work and put in the long hours it will take to get there. My promise today is that I will work tirelessly for my district and do everything I can to make sure we are leaving a better country for our children and grandchildren.

Again, thank you to the people of Michigan's First Congressional District for this opportunity.

DON'T TURN YOUR BACK ON MILLIONS OF FAMILIES

(Ms. TSONGAS asked and was given permission to address the House for 1 minute.)

Ms. TSONGAS. Mr. Speaker, since the Affordable Care Act was signed into law, millions of Americans have gained access to valuable healthcare services, and every American has seen their health insurance benefits improve.

While there are ways the Affordable Care Act can be improved, we cannot afford to go back to the days when big insurance companies had the power to decide what care Americans could receive, deny coverage to children with diagnosed conditions, cancel coverage
